PROJECT

- **Title:** Water Lifting By Cradle.
- **Description:** Studying and analyzing different model our group decided to develop pump which can run by the utilization of swing cradle. Here we try to represent a '**WATER LIFTING BY CRADLE**'. Many people child enjoy the cradle. The manual power i.e. operating the cradle by the child is transferred to the reciprocating movement of piston of pump. In this model we provide the piston pump mounted on one side of the cradle frame assembly.
- **Responsibilities:** Design and Drafting of Cradle in (AutoCAD) and Thesis report.
