

RITU GURNANI

ISTQB Certified ETL Tester

☎ (+91) 7737574721

✉ ritugurnanimbm@gmail.com

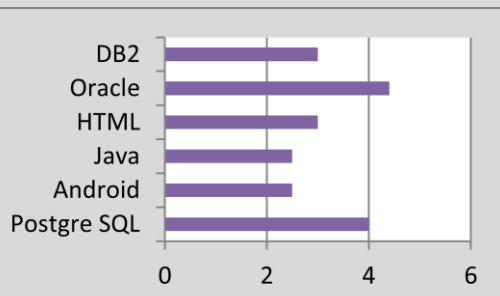

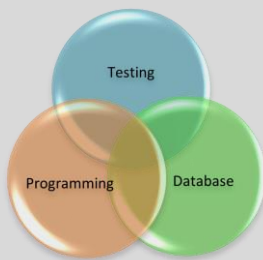

🏠 street no-4, Behari Ganj, Ajmer

📅 20 September 1993

Tools

- HP ALM Quality Center and Jira
- Selenium IDE and WebDriver
- DB Visualizer, SQL Developer and Teradata
- Beyond Compare and Spreadsheet Compare
- Android Studio and Eclipse

Skills

Profile Highlights

Having 1 years, 11 months of experience in IT industry, specializing in end to end ETL data testing and Automation Testing with Civil Engineering background.

Career Objective

To gain practical knowledge and experience in order to grow as a professional and as an individual in order to contribute positively to the society.

Education

DEGREE	INSTITUTION	BOARD/UNIVERSITY	YEAR
X (92.4 %)	ST. MARY'S ,AJMER	CBSE	2009
X II (89.4%)	ST MARY'S, AJMER	CBSE	2011
B.E. (71%) HONOURS	M.B.M JODHPUR	JNVU	2015

Professional Experience

Tata Consultancy Services PVT. LTD. (from Jan 2016 to present date)

- ❖ Contributed to the full mobile application development lifecycle from planning, requirement gathering, development, testing and launching on Google play store for beta testing
- ❖ Part-time teaching experience for 1 year
- ❖ Have worked in Banking and Insurance domains, both as a developer and tester.
- ❖ Basic Understanding of Functional and Regression Test Automation.
- ❖ Knowledge on Testing Life Cycle, Bug/Defect life cycle, Defect tracking and management, Agile and Waterfall testing models, SQL, BI tools, HP ALM, and ORACLE and PostgreSQL data base
- ❖ Idea on Test Automation Framework implementation
- ❖ Experience in ETL testing on Windows Experience in preparing/reviewing/executing Test cases, Defect logging/tracking/analysis
- ❖ Expertise in End to End data creation and testing
- ❖ Expertise in Test case management tool HPQC- 9.0/10.0, open source defect tracking tools like Jira.
- ❖ Expertise in ETL/DWH testing concepts and in understanding Business requirements, Design documents, IEEE 829 Test Plan and STLC.
- ❖ Expertise on various testing types like System testing, Regression testing, Functional testing, UAT testing etc.
- ❖ Worked with Developers to understand requirements for the purpose of generating test cases and test data.

Projects

Automation Project

July 2017 to Present

Client	Athene Insurance Company, USA
Project(s)	Portal Testing- Planning Automation
Role	Automation Engineer
Duration	5 months

Roles and Responsibilities:

- Worked on TestNG framework, Data Driven Framework
- Responsible for identifying the test cases which are to be automated.
- Responsible for reviewing Automation Scripts.
- Understanding Test Requirements and analyzing the Application under Test(AUT).
- Generating Test Cases (Test Scripts) using Selenium Element locators and WebDriver Methods.
- Enhancing Test cases using Java programming.Bugs tracking and Defect resolution and Management
- Executing Test Scripts.
- Detecting Bugs and Classified them based on severity and priority.
- Responsible for sending weekly status report.
- Working with Defect Mail Management.
- Responsible for Handling Reporting Team with Production Defect.

ETL Projects

August 2016 to July 2017

Client	Athene Insurance Company, USA
Project(s)	MDM De-commission,Sales Reporting
Role	ETL Engineer
Duration	11 months

Roles and Responsibilities:

- Reviewing database business and functional requirements, reviewed mapping transformations
- Verifying the data in target database by ETL process
- Verifying column mapping between source and target
- Preparing test data for functional & Integration testing
- Interacting with BAU & Dev teams to resolve the issues.
- Reporting daily testing status.
- Designing, Revieweing & Executing Test cases.
- Bugs tracking and Defect resolution and Management
- Identifying Test cases for Regression testing
- Defect Analyzing and Reporting in QC
- SQL, PostgreSQL, DB2 and Oracle querying for retrieving data from Database.
- Writing technical documents/emails with the correct level of details.
- Communication with client for Data management.
- Preparing project deliverables documents by coordinating with team members
- Participating in external audit process and revised standard testing practices

Client	Deutsche Bank, Poland
Project(s)	Vicinity, Remind Me
Role	ETL Engineer
Duration	7months

Roles and Responsibilities:

- Contributed to the full mobile application development lifecycle from planning, requirement gathering, development, testing and launching on Google play store for beta testing.
- Responsible for development of all application components and UI resources
- Integrated Google Maps API V2
- Performed testing on Physical device and the android emulator.
- Tested the application on multiple android targets and debugged the issues that were found

Research

- Have published White papers on Basics of Android App Development and Agile Model-for TCS Internal use
- Have published Best Practices on ETL Data Migration Testing – for TCS Internal Use

Declaration:

The above information, to the best of my knowledge, is correct and true. No attempts have been made to falsify details.
